

## NATURE'S NUTRITION RABBIT FEED

*The Country Life means being close to Nature and nothing is more natural than bunnies frolicking around your place. Besides being cute, cuddly, and the first animal kids want to hold, rabbits can be great projects for the whole family. Nature's Nutrition is designed to be a complete diet providing all the nutrition needed for growing and breeding rabbits. It is consistent in quality and the small diameter pellet reduces feeding waste. For your rabbits, be sure it is Nature's Nutrition providing the formulas to meet their needs.*

### 15.5% BUNNY PELLETS

- Feed by weight, not volume (See tag for feeding instructions.)
- 15.5% Protein, 3% Fat, 14% Crude Fiber
