

## NATURE'S NUTRITION BEEF FEED

*A herd of cattle grazing in the field is a familiar scene throughout the land. The quiet browsing of these gentle animals provides many things to the Country Life. Because grass alone does not fulfill their total needs, energy, minerals and protein are required for a healthy diet. For the cattle that roam your land, Pennfield has developed Nature's Nutrition formulas to meet these special needs.*

### 14% BEEF CREEP FEED

- 14% Protein, 2.5% Fat, and 7.5% Fiber
- Complete ration that provides balanced nutrition, with no grinding or mixing necessary.
- Selenium and chelated trace minerals for bioavailability and improved hoof integrity.
- Helps produce fast, efficient gains.
- Texturized form includes flaked ingredients and molasses for delicious tasting feed and increased palatability and digestibility.

### 12% BEEF GROWER/FINISHER

- 12% Protein, 2.5% Fat, and 8% Fiber
- Selenium and chelated trace minerals for bioavailability and improved hoof integrity.
- Texturized form includes flaked ingredients and molasses for delicious tasting feed and increased palatability.
- High energy for rapid growth.

### 12% ALL-STOCK PELLET

- 12% Protein, 2.7% Fat, and 10% Fiber
- Versatile one-feed formula reduces inventory.
- Consistent quality for healthy animals.
- Added molasses for enhanced taste and increased palatability.
